Size 2 is knitted with 2.75 mm needles.

MEASUREMENTS

Circumference: approx. 18 (20) cm / 7 (8)"

Length: approx. 25 (27) cm / 10 (11)"

PATTERN INFORMATION

Bow Pop Mittens is a playful and colorful mitten design featuring graphic bow motifs and fun textured details.

The mittens are worked in the round using chart-based colorwork, making it easy to customize the look by experimenting with different color combinations.

The pattern includes two sizes that use the same charts and stitch counts, with size adjustments achieved by changing needle size. This creates a neat, structured fit while keeping the pattern clear and easy to follow. Bow Pop Mittens is perfect for knitters who enjoy colorwork and are looking for a cheerful, personality-filled project with lots of creative possibilities.

Happy Crafting!

Pattern

INFO AND TIPS

When working the colorwork charts, make sure to keep the contrast color as the dominant color. This means that the dominant color should be held closest to you and the needles, which helps the pattern stand out clearly and keeps the floats even. The only exception is when working the two-colored cuff, where the main color should be held as the dominant color. If you are using the magic loop technique, you can easily separate the front stitches on one needle and the back stitches on the other, which can make it easier to follow the charts.

CUFF

Cast on 60 stitches with CC2 using 2.5 mm (2.75 mm) / US 1.5 (2) circular or double pointed needles depending on your choice. Use the long tail cast on method Join in the round and K1, P1 for one round.

Change to your MC and CC, *K1 with the MC and P1 with the contrast colour* repeat from * to * for the entire round. Make sure to keep the MC as your dominant colour. Repeat for 16 rounds total.

Knit one round with your MC and increase two stitches evenly, you should have 62 stitches.

MITTEN

Follow the chart for the Right or Left Mitten. The chart is worked from right to left for both mittens. When working the chart, make sure to increase for the thumb as listed in the chart. When you reach round 30 knit until you come to the black line for the thumb hole. Place the next 13 stitches on a stitch holder or waste yarn. Using the backwards loop method cast on 13 stitches as in the pattern and then continue the rest of round 30.

Continue to knit according to the chart and decrease by K2TOG or SSK depending on what the chart says. Once you have completed the mitten chart, cut your yarn and leave a long tail. Take your darning needle and pull it through the remaining stitches. Pull tight and weave in the end.

THUMB

Place the 13 thumb stitches back on to the needle. You are now going to pick up 15 stitches.

Right mitten pick up: 1 st with MC in the side, 3 more with MC, 3 with CC, 3 with MC, 3 with CC, 1 with MC and 1 with MC in the side.

Left mitten pick up: 1 st with MC in the side, 1 more with MC, 3 with CC, 3 MC, 3 CC, 3 MC, 1 MC in the side.

You should have a total of 28 stitches.

Follow the chart for the right or left thumb and make sure to decrease where indicated. Once you have completed the thumb chart, cut your yarn and leave a long tail. Take your darning needle and pull it through the remaining stitches. Pull tight and weave in the end.

Weave in all your ends and block your mittens by gently soaking them in water and letting them dry lying flat.

Enjoy!

Step-by-step: Picking up stitches for the thumb

Step 1
Transfer the 13 thumb stitches from the stitch holder back onto your needle.

Step 2
Cast on the new stitches as instructed in the pattern for the mitten you are working.

Step 3
The thumb is now ready to be knitted according to the chart.
