KNITTING PATTERN

Tromsø Hoodie is a chunky and warm balaclava. A must-have in your F/W wardrobe. The rib is worked on a circular needle, while the rest of the hoodie is worked back and forth with stockinette stitch.

It's stitched together at the top (or knitted if you know the technique), and is finished with a nice i-cord edge. It's available for children as well.

Color codes Børstet Alpakka **1042** Kos **1043**.

Balaclava

Cast on 78 sts on circular needle 6 mm with one strand Børstet Alpakka held together with one strand Kos. Work rib (knit 1 twisted, purl 1) until the work measures 13 cm.

Knit until you have 8 sts left on the needle. Bind them off loosely. Knit one round, and place a marker in the 35th stitch (middle back). From here, work the hoodie back and forth.

Now, purl one round and make a cup of coffee.

Increase 1 sts on each side of the marker every 2. round (right side) 4 times in total. You increase by knitting the strand between two stitches twisted. Knit without increasing until the hoodie measures 36 cm.

Decrease 1 sts on each side of the marker every 2. round (right side) 4 times in total. Knit without decreasing until the hoodie measures 40 cm.

Bind all stitches off loosely, and stitch the top together on the wrong side. It's time to make a nice i-cord edging around the face-opening.

Pick up sts along the opening (skip every 5th sts, and cut the yarn. Start with the first sts you picked up. * Knit 2 sts, knit 2 sts together in the back loop, move 3 sts from the right needle to the left*.

Repeat from * to * until you have 3 sts left on your right needle, bind them off loosely. Stitch the i-cord edge nicely together.

Weave in all ends on the wrong side. Have a nice trip out in the cold. Brr.
